PROJECTS

YouTube Channel, AnimalFeed

- Built and grew a YouTube Shorts channel to 3,000 subscribers and 3M+ views within 60 days by optimizing hooks, pacing, and audience retention using platform analytics
- Created short-form video content focused on high-retention storytelling, trend timing, and repeatable content formats

Personal Branding Video, Miami University, MKT 418

- Produced and edited a personal branding video using Adobe Premiere Pro, combining storytelling, visual pacing, and digital marketing strategy
- Developed video as part of a professional portfolio to communicate personal brand, creative strengths, and career interests

Streetwear Shoe Product Catalog, Miami University, IMS 322

- Designed and developed a responsive product catalog for a fictional streetwear shoe store using HTML, CSS, and JavaScript
- Built dynamic product cards and modal interactions by organizing product data in JavaScript arrays and using dataset attributes to display selected product details
