PROJECTS

Notch: Life Planner Organizer | *Swift, iOS* | [App Store](#)

- Designed, built, and published a native iOS planner app in Swift as the sole developer, covering tasks, assignments, budgeting, habits, and workouts with local persistence, backups, and export.
- Integrated the Gmail API, Google Calendar API, Apple HealthKit, and Strava to surface a user's email, calendar, health, and activity data in the app; built home screen widgets and local notifications.
- Maintain the product after launch with ongoing updates shaped by user feature requests, and market it independently through short-form video content on Instagram and TikTok.

Sites by Marko | *Freelance Web Development Business* | sitesbymarko.com

- Founded a freelance web development business built around hand-coded responsive static sites in HTML, CSS, and JavaScript, using a VS Code and GitHub development and deployment workflow.
- Built a self-contained HTML command center that runs daily operations, combining finance, lead, business, and development views in a single application.
- Automated lead sourcing and qualification with custom Claude Code commands and skills that audit prospect websites, classify them by condition, and select a matching outreach script.

AnimalFeed | *YouTube Shorts Channel*

- Grew a YouTube Shorts channel to approximately 3,000 subscribers and 3M+ total views in roughly 60 days by testing hooks, pacing, and posting timing against platform analytics.
- Analyzed audience retention data to identify repeatable short-form content formats and applied them across the channel's posting schedule.

EXPERIENCE

MIAMI UNIVERSITY, Oxford, Ohio

August 2026 – December 2026

Teaching Assistant — IMS 322: Intermediate Interaction Design and Development

- Support 40+ students across two sections of IMS 322, an intermediate interaction design and development course covering HTML, JavaScript, and client/server application development.
- Help students debug code and work through course projects, and assist the instructor during class sessions.

ALPHA SIGMA PHI FRATERNITY, MIAMI UNIVERSITY, Oxford, Ohio

August 2024 – Present

Social Media Manager

- Manage the chapter's Instagram, producing content for 10+ events across 25+ posts and reels.
- Plan the content calendar around recruitment and events, using Instagram analytics to adjust timing.
